

Light, all-in-one manual control for CMMs

i-MAN 2 is Itaca's compact controller interface for manual CMMs.

It can be neatly connected to the measuring machine in 1', setting it ready for the connection to Itaca's measuring SW, Tangram.

No clumsy boards and cables to fit into PCs. Just a serial line that will fit Desktops or Laptops.

The connection to the CMM is by three, 15 pins, standard sub-D connectors for the scale signals and one RJ connector for the probe.

No adjustments needed.

Internal, universal AC power-supply for 110-230 VAC.

Ideal for retrofitters

Specifications:

Power supply: 90-264 VAC, 47-63 Hz, 50VA

Read head type: Digital, 5V, Differential output, 15 pin sub-D connector

Probe: 4 wires, Renishaw standard PICS. Debounce filter settable from 0 to 256 mS

Communication: RS232

SW Compatibility: Itaca Tangram
